

BELSTA

SHOE FACTORY

This is what we call a closed production cycle

Says the director of BELSTA Shoe Factory

From cutting textiles, sole molding and upper part decorating, to packaging in our branded boxes - everything happens right here, within BELSTA factory. Every stage of creating footwear is concentrated in one place: ideas are born, new models are crafted, finished products are stored in our own warehouses. All the shipments are also dispatched from the one central location. BELSTA is a manufacturer that offers convenience in every aspect of collaboration. BELSTA slippers are goods, where each stitch is infused with love. We believe that comfort at home is something truly invaluable, that is why we pour our hearts into every pair created.

We invite you to become a part of our partners! The first step is to explore this catalog and discover BELSTA wide selection of slippers. →

BELSTA aim is not limited to simple offering you a cozy product. We strive to provide you with comfort in every facet of our collaboration. From the warmth and care you find in BELSTA footwear, to the easy and reliable partnership you experience with us.

At the beginning of our catalog we would like to present you with women's models of slippers on polyurethane soles. The factory has developed unique technologies with the help of which it manufactures soles for slippers itself. This is a guarantee of the high quality of our products. All stages of production of house slippers are carried out on the Belsta factory, which gives us an undeniable advantage in the market.

BELSTA

SHOE FACTORY

These slippers are made of synthetic material with added wool. The comfort of the model is due to the elastic, pleasant to the touch material of the top and flexible, light, almost weightless, but at the same time durable sole made of polyurethane. This model uses direct casting method. It is a more advanced and complex method. Such slippers are stronger and wear-resistant due to the fact that the sole is not glued to the preform, but laid directly to the preform, becoming one whole. Bright embroidery will bring positive emotions to you and your loved ones. Also, thanks to the sole material, it almost does not slip and is ideal for any floor covering, and the direct casting method allows you to wash slippers without any problems.

Belsta also offers a collection of stylish and warm winter boots, including classic suede and water-resistant fabric (raincoat material) models. These boots are lined with soft faux sheepskin for extra warmth and comfort, making them perfect for colder seasons. The durable polyurethane sole ensures stability and longevity, while the variety of designs allows you to choose the perfect pair for any occasion. Whether you prefer a sleek, minimalistic look or cozy, fur-trimmed details, Belsta's winter footwear combines practicality with modern style.

BELSTA
SHOE FACTORY

Model: SV 2204-4

Men's slippers from the manufacturer BELSTA are made of wool suitable for use in the cold season. Slippers made of wool well warm the leg. The insole is made of velor. One of the key advantages of BELSTA slippers is the excellent thermoregulation of wool. It keeps you warm in the cold, and in the heat allows your feet to breathe, avoiding overheating. Thus, these slippers are ideal for use throughout the year. Advantages of the product:

- slippers have a long life - 2-3 years;
- the top fabric is not deformed or wiped;
- insole firmly sewn;
- warm and comfortable.
